# How to create an input file

## Fields: Assessment Center Scoring Service Input file fields

Here is information about the fields in the input file required by the Assessment Center Scoring Service.

<b>PIN</b>	Unique participant ID you use to identify your participants. This can include letters, numbers, and symbols.
<b>Assmnt</b>	Data collection time point (e.g. assessment 1, assessment 2). A single input file can be used to score the same instrument administered at multiple timepoints.
<b>&lt;Insert Item ID&gt;</b>	Item ID used in Assessment Center. You can find the correct item ID on PROMIS and Neuro-QOL PDFs. The PDFs can be accessed by conducting an instrument search on the <a href="#">Search/View Measures</a> page of the <a href="#">HealthMeasures</a> website. Once you have found the instrument you are interested in, click on the instrument name to open the PDF. There will be as many of item ID columns as there are items in the instrument (i.e. one item per column). The header row will be the item ID while the remaining row will consist of actual response scores.

# Input File

PIN	Assmnt	EDANX01	EDANX02	EDANX05	EDANX08	EDANX12
1400018	1	2	2	3	1	3
1400019	1	2	1	2	1	3
1400020	1	1	1	1	2	2
1400021	1	2	2	2	2	2
1400022	1	1	1	2	1	3
1400023	1	1	1	1	1	2
1400024	1	2	2	2	2	3
1400025	1	3	3	4	4	4
1400026	1	2	2	3	1	2

HealthMeasures

TRANSFORMING HOW HEALTH IS MEASURED

# Additional Considerations

- Input files cannot exceed 100 KB
- Participant did not answer an item - “SKIP” or a blank field
- Only one instrument may be scored at a time
- The file type must be a .csv

# Selecting Items

What type of short form instrument will you be scoring during this upload?

Existing Short Form or Profile  Custom Short Form

To search, make a selection from drop lists or enter keyword.

PROMIS  Adult  Emotional Distress/Negative Affect

Select your item bank from which items originated

PROMIS Bank v1.0 - Anger  
PROMIS Bank v1.0 - Anxiety  
**PROMIS Bank v1.0 - Depression**  
PROMIS Bank v1.1 - Anger  
PROMIS-Ca Bank v1.0 - Anxiety  
PROMIS-Ca Bank v1.0 - Depression

HealthMeasures

TRANSFORMING HOW HEALTH IS MEASURED

# Selecting Calibration

**Select your item bank from which items originated**

PROMIS Bank v1.0 - Anger
PROMIS Bank v1.0 - Anxiety
PROMIS Bank v1.0 - Depression
PROMIS Bank v1.1 - Anger
PROMIS-Ca Bank v1.0 - Anxiety
PROMIS-Ca Bank v1.0 - Depression

**Score**

**Select calibration sample to be used during scoring:**

✓ Select Calibration Sample
Promis Wave 1 (default)
Cancer
PROMIS Profile v2.1
SCI-QOL
Spanish
TBI-QOL
Wave 1B

# Upload input file

**What instrument name (label) should be used in the data output?**

Sample Distress Screening

**Provide an email address to which your scored data export should be sent\*:**

michael-bass@northwestern.edu

**Re-enter Email:**

michael-bass@northwestern.edu

\*Enable inbox to accept emails received from assessment.net.

**Select File:**

Choose File

Scoring Serv...emplate.csv

\*Selected file size should not exceed 100 KB - 2000 or less data rows.

Upload Data
