**Security Warning for NIH Toolbox Words-in-Noise (WIN) Test**

Have you seen this warning?

Due to recent updates to Java, you will need to adjust these settings on your computer to use the NIH Toolbox Words-in Noise (WIN) Test

Java Settings:

- Go to Control Panel on your computer
- Open Java
- Go to the Advanced tab in the window that opens
- Scroll Down until you see Mixed Code and select "Enable – hide warning and run with protections"
- Click Ok
